and exposed to gross immorality. This subject has been undergoing Parliamentary investigation, but no efficient remedy has yet been devised. The whole question of labor both there and here must be subjected to a close scrutiny and free discussion, as one of the most perplexing problems of social science.

Mr. Gladstone's amendment to the migration bill was intended to extend the franchise to householders who pay the poor rates, by competition with their landlords, as well as to those who are personally rated, the former class, known as compound householders, being practically excluded under Mr. Disraeli's scheme. The division took place on the morning of the 13th inst. The London Times says: "Never in our time has there been such a shaking of the nation's as preceded the division." The report in the same paper says of the scene: "The division was taken at half-past 1 exactly, in a scene of extraordinary excitement. It lasted more than 20 minutes, and when the clerk at the table handed the paper to Mr. Whitmore, the government teller, the ministerialists broke out into a ringing cheer, which for a good minute prevented the numbers being read out. They were—

| | |
|--------------------|-----|
| For the amendment, | 289 |
| Against it, | 310 |

Majority for the government, 21.

As the decisive character of the majority was made known, the cheers broke out again, and many members crowded around Mr. Disraeli to shake hands with him, and congratulate him on the victory.

The division disclosed a very singular condition of party lines. Mr. Gladstone was supported by some extreme conservatives, including Lord Cranborne, Sir William Heathcote, Mr. Beresford Hope and others, by Mr. Lowe and his friends and by most of the extreme liberals headed by Mr. Bright. On the other hand a large number of the steady supporters of the late liberal administration and many radicals voted with the ministry.

FREE MASONRY IN THE ROCKY MOUNTAINS.
The Montana Post says: "It is proposed to rear here, in the heart of the Rocky Mountains, a great Masonic Temple, an enduring monument of the work of Montana masons, and a model of modern architecture. The ground immediately adjoining the present hall has been purchased; several thousand dollars have already been subscribed, and at a meeting called it is intended to determine the preliminary measures for an early commencement of labor. The building is to be of stone, three stories in height, completely fireproof, with walls 25 by 75 feet in the clear. The old hall will open from the second story, and be divided into committee and reception rooms, and a banquet hall. The cost of construction is estimated at \$20,000 to \$25,000, and when completed will be furnished in the best style of the order."

MEXICAN OUTRAGE UPON AMERICANS.—A Brownsville correspondent of the New Orleans Picayune says sixteen Americans employed in a ship yard at Bigdad, Mexico, were recently arrested because some worthless characters attacked the guard of the yard, although they were not concerned in the affair, and marched thirty three miles on foot to Matamoros. Several officers of the steamer Tamulipas, undergoing repairs, were included in the arrests. These Americans were arrested to extort money from their employers, and have been and are being treated like common felons. Another letter from Brownsville says the liberals proclaim war upon all foreigners in the country.

THE NEW ORLEANS TRIBUNE complains that Gen. Sheridan has appointed all the registrars from the white race, and that they are unjustly class appointments. It thinks that he should have appointed men of color whose status as such was well known and unquestioned, bona fide colored men. This would have been the only way of proceeding worthy of the General. Now we repeat to our colored fellow-citizens, that the day when equal eligibility to office will be a truth has not come yet, and is not likely to come from any quarter but from our own votes, when we elect men of our own race.

Good Advice.—Ex-Governor Pease, of Texas, writes to his old neighbors in that State that he sincerely hopes that "a majority of our citizens will place the government of the State in the hands of men who are at heart attached to the government of the Union. Unless they are prepared to do this they had as well do nothing. No other course can secure a perfect restoration of the Union. While the present condition of affairs continues emigration and capital will not go South from this section, but we would at once have a large accession of both if the conduct of our people were such as to make the people of the North and West believe that we had in good faith abandoned our old political ideas."

One of the remarkable results of the reconstruction measure is that whereas original union men were previously in bad odor with the majority of the southern people, and so far from being popularly eligible for any position of trust or honor they might have thought themselves happy to be lot alone without persecution, they are now eagerly sought out and asked to take office. In South Carolina, for instance, Governor Orr has just issued a circular to the present county officers, asking them to furnish names of competent persons, who can take the test oath, that they may be appointed registers and managers of election.

Companies are forming in almost every considerable town in the West to emigrate to Montana.

An infant in Richmond with a deep blue eye and the other a positive black one attracts great attention.

A man in Albany was relieved of a fish-bone which he swallowed twenty years ago. It was taken out of his neck.

The strike of operatives in the mills in and around Westerly, R. I., continues, and the woolen mills are all still.

The Charleston Mercury proposes to call our new Northwestern Territory, "Wykes"—after General Wykes.

A young Irish girl, who was rendering testimony against an individual in a court of law, made the following expressive reply: "I am sure he never made his mother smile."

A negro woman living at Memphis who remembrance seeing Washington in his creaked, buck-toothed, short pants and blue coat.

Fourteen hundred and thirty-eight barrels of flour were shipped from Richmond to Brazil for the quarter ending 31st March.

"Boy," said a facetious farmer to his son, "I had a pretty hard day's work yesterday; now let's have a game of chopping wood."

There will be from thirty to one hundred sail of sail-boats and about fifty-five of pleasure boats from Provincetown the present season.

The Mountains east of Lexington, Va., were on the last week, and presented a beautiful appearance. On Sunday night week the flames extended for miles along the cone of the mountain.

The Macchias (Mr.) Republican says that Mr. John M. Johnson and his son, at E. Gishwood's River, one day last week, lost twenty-two sheep, which were swept away by the tide while on the beach after seaweed.

The New Bedford Mercury announces the death of Mrs. Nancy Rolch of that city at the age of ninety-one. She was the widow of Francis Rolch, cap, one of the owners of the ship Dartmouth, celebrated as the vessel which was brought into Boston harbor with tea which was thrown overboard by the "Mohawks" in 1771.

Another huge gun was cast at the Fort Pitt Foundry, Pittsburgh, last week. A hundred and forty thousand pounds of metal were used, and the operation took about half an hour. The weight of the piece will be reduced to 95,000 pounds. It will carry a ball of 1000 pounds.

The Berger (Mr.) Times speaks of a little girl of that city, named Florence Story, about three years of age, who sings and plays the mandolin with great skill. The Fire Department of that city propose to give a concert and concert, and engage her to appear as one of the musical performers.

Deputy Constable Gifford, while in search of contraband goods at the premises of James C. Day, in Lowell, was surprised to find on going down cellar a distillery which had the appearance of recently having been in full blast. The still had a capacity of 60 or 70 gallons, and a quantity of liquor supposed to be of home manufacture were seized.

An old colored preacher and school teacher in Columbus, Ga., was asked, the other day, what party he belonged to. Like a "man and a brother," he replied: "Don't belong to no party; I love all good people here alike, and pray for all alike." Then, said the inquirer, "you are a philanthropist?" "No, sir, I ain't; but, I ain't—I'm a Baptist, esb. a Baptist."

A dandy once went to a doctor to be bled; the doctor, after some time and trouble, succeeded in drawing blood from his trembling arm. Upon the dandy, after a little bit of fear and subsiding, raised up his head and exclaimed, "Oh, no, I think you are a great butcher." "Yes," said the doctor, "and I have been at this a great while."

THE MACHINERY FISHERY.—The first vessel of the Mackinac fishing fleet arrived here last night. This boat was one of the first to have delayed their arrival this year some two or three weeks later than usual.

OF THE MANY Canneries and Toilet Articles now advertised, but few prove to be what they are represented. Messrs. Berger, Shutt & Co., Chemists, of Troy, N. Y., are advertising extensively several articles that have proved themselves just as represented, for which they are acting as agents. We believe them to be trustworthy, and that parties using their preparations will find them fully up to the recommendations given. See their advertisement in another column of this paper.

The records of the War Department show that there are now confined at the Dry Tortugas fifty prisoners, of whom 9 are citizens and 41 soldiers. Among the citizens are Mudd, Spangler, Arnold, and O'Laughlin—the assassin, conspirator, and Legat Graciel, sentenced to life-long hard labor for conspiring to release prisoners of war.

ORONOTA.—A number of Georgia papers represent the wheat and fruit crop as unusually promising. Some of them say that the planters had recently just commenced putting in cotton, of which there will be much less planted than was anticipated a few weeks ago. Much of the land prepared for cotton has been converted into corn fields.

Gen. Hancock reached Fort Zera, and attempted with Indian scouts to find the trail of the Cheyennes, but was unsuccessful. He then surrounded their camp, but before commencing an attack he sent forward messengers to propose a truce. The camp was found deserted, and most of their property abandoned.

A MEXICAN, as big as the grand Heron might be built of the teeth that have been ruined by neglect. Shall this still go on in the face of the great fact that SUDORF'S is a certain preventive of dental decay?
